AMENDMENTS TO THE SPECIFICATION:

Please amend the paragraph beginning on page 10 at line 19 as follows:

b1

The second retainer part 94 includes an outlet tube 140. The outlet tube ~~14~~ 140 has a cylindrical configuration and projects from the second retainer part 94, at one circumferential location on the second retainer part. The outlet tube 140 extends parallel to the longitudinal central axis 36 of the inflator 10. The outlet tube 140 is in fluid communication with the collection chamber 128, so that fluid flowing into the collection chamber can exit the second retainer part 94 through the outlet tube.
